Owner's Rental Fleet Program

Allstar Coaches Owner's Fleet Program is the nation's most successful private motorhome rental program. Whether you currently own an RV or you're planning to buy one, you can derive substantial income from your RV.

Let your RV Pay For Itself

Whether the costs of ownership have become burdensome, you simply don't use your motorhome enough to justify owning it, or you have upgraded your coach but haven't yet sold your previous RV, Allstar's fleet program may be the answer you've been searching for.

Active units enrolled in our rental fleet program average about 24 weeks of rentals, generating enough revenue to offset, or in many cases to completely cover the costs of ownership.

Maintaining The Fleet

In most cases, our maintenance procedures are far stricter than even the manufacturers. When a coach enters our fleet, we input the vehicle data in our state-of-the-art fleet management system. This comprehensive system keeps track of all vehicle activity including mileage, genset hours and routine scheduled maintenance. When service is required, we use only factory authorized or approved vendors. All service records are kept on file, and copies of any work done is included with the monthly statement and payout to vehicle's owner.

As the #1 luxury RV rental provider in the USA, our reputation rests on our ability to provide the best vehicles and service in the industry. Clients who are paying thousands of dollars per week for an RV are by nature very demanding, and expect to show up and find their rental vehicles in pristine condition - inside and out. Anything less is unacceptable.

Renter Screening

In order to protect the integrity and condition of our vehicles, it is crucial that any potential customers are thoroughly screened before they are allowed to depart with a vehicle. In doing so, we routinely run credit and background checks, verify employment, insurance and driver information.

Tax Advantages

In addition to earning income and offsetting the costs of RV ownership, RV owners enrolled in our Fleet Program generally qualify for substantial tax benefits including deduction of expenses, depreciation an allowance under Section 179.

We do recommend that you consult with your own tax advisor who can explain how to properly set things up to give you the maximum benefit.

Owner Use and Limitations

Use your coach whenever you like. This program is 100% opt in. There are no annual contracts, limitations or restrictions on owner use. Period. Simply, call our Owner Services team and block out your dates.

Smoking

NO! WE HAVE A ZERO TOLERANCE POLICY FOR SMOKING in our coaches. Every coach is tested for smoking before and after every rental. If any evidence is found, the renter is charged a minium \$1000 cleaning and deodorizing fee (no exceptions) plus must pay for any damage caused by smoking. We know this seems a little bit excessive; however it's is purposely that high to deter even the most stubborn renter.

What do I have to do to enroll?

Enrollment in Allstar Coaches fleet program is surprisingly easy! Owners just supply the RV and we take care of the rest.

We have the clientele, the experience and the most stringent screening process in the industry. Allstar will manage your RV, collect the rental fees & deposits and generate an itemized statement & commission check each month.

To find out more detailed program information, and to find out how much your motorhome can be earning for you contact Allstar Owner Services at (866) 838-4465, option 3.
